- 1. Appropriate web page in the institutional website:**
- 2. Any other relevant information:**

Dhanvantari Homoeopathic Medical College and Hospital & Research Centre, Nashik has portrayed the performances of the institution in one area distinctive to its priority and thrust.

The aim of the institution is to make and empower students in perceiving knowledge, values and social responsibilities and help and guide the students to achieve the goal and excellence in field. So they can prepare to face the challenges in this competitive world.

In our institution, we always try to learn some new techniques, skills, so we can give effective support to the students for the purpose of learning, practicing and for research.

In the last five years, the institution has dedicated its efforts to enhance the resources for research and thesis for interns.

The vision of the institution is to polishing and innovating homeopathic education and its application. For this, colleges make it mandatory for fourth year students and interns to make clinical case presentations by selecting surgical or medical cases. According to the rules of university, students and interns have to make a case for departments like, medicine, surgery, obstetrics and gynaecology and paediatrics.

VILLAGE ADOPTION:

The college adopted villages namely MADAKI JAMB JAMBUTKE VANARWADI, INDORE AND TALEGAON. In all these villages, we periodically arrange medical camps and health checkups to increase the practical knowledge of students. In these camps and health related activities, students get to know about the health problems in the village population and we try to give the best treatment to them. And we try to make them aware about health related problems and personal hygiene.

Our institution has adopted Madakijamb village since 2018. Health check-up camps are arranged in this village periodically. During covid-19 epidemic our institution initiated Ars-alb distribution in Madakijamb village as well as run covid-19 awareness programme for the betterment of villager's health. We arrange 4-5 camps every year by group of 8-10 Interns under the guidance of senior medical officer of our institute.

Jambutke village in Dindori district is adopted by our institute from 2022. Camps are arranged at the interval of 3-4 months with the permission of village's Authority.

Similarly 2022 Onwards, our institute adopted 3 new villages namely, Vanarwadi, Talegaon, Indore in Dindori district and we run free health check-up for the residential community in village.. A team of 8-10 interns do general check-up of patients ,consultation is done by renounced medical officers and necessary medicines also distributed free of cost during the camp.

**DHANVANTARI HOMEOPATHIC MEDICAL
COLLEGE AND HOSPITAL AND RESEARCH CENTRE, NASHIK**

The sole aim of village adoption is to raise health awareness among the community regarding hygiene, nutrition and sanitation and teach them to deal with communicable and non-communicable diseases, to develop long-term health-seeking functions.

It gives an opportunity to interns to gain maximum clinical exposure, to learn about epidemic, endemic, sporadic diseases as well as it helps for their thesis eg. To find Genus epidemicus for particular epidemic condition in community. It helps to know scope & limitations in homoeopathy in rural area.
