To,
The Director,
Student Welfare department,
Maharashtra University of Health Sciences, Nashik

Subject—Regarding activity taken for social awareness about prevention of water borne diseases in the community.

Respected sir,

As per suggestions given by Student Welfare department of MUHS, NSS department of every college has to perform various social activities. So, as per instruction given by Student Welfare department of MUHS, NSS department of DHMC organised an activity regarding social awareness about prevention of water borne diseases.

Objective of activity –To create social awareness about prevention of water borne diseases

Activity— NSS students of 3rd year from Dhanavantari Homoeopathic Medical College And Hospital & Research Centre, Nashik divided themselves into small groups. Each group was given a particular area for creating social awareness about prevention of water borne diseases. Students told citizens about risk of water borne diseases specially in rainy season. Students also explained the use of mosquito nets, use of mosquito repellent creams for prevention of Malaria, Dengue etc. Students insisted to the citizens that drinking boiled water is must in rainy season for prevention of Typhoid, Hepatitis A, Cholera, Acute Gastroenteritis and Amoebiasis, Helminthiasis etc. All the citizens listened the information given by students with great interest.

Students were guided by Dr. Abhishek Pagare sir. He gave full guidance to students regarding social awareness about prevention of water borne diseases.

Throughout this activity students were enthusiastic.

BENEFITS OF SOCIAL AWARENESS ABOUT DIABETUS MELLITUS----

- 1] Social awareness about Water borne diseases provides a better understanding about disease transmission.
- 2] Social awareness about Water borne diseases enhances the water supply systems.
- 3] Social awareness about Water borne diseases reduces the risk of infection.
- 4] Social awareness about Water borne diseases improves the sanitation.
- 5] People will also become aware to reduce the risk of malnutrition.
- 6] People will get knowledge about what are symptoms of Water borne diseases
- 7] People will get knowledge about diet & regimen to control Water borne diseases.
- 8] People will get knowledge about different types of Water borne diseases.
