Seminar Report LPG & MNGL Gas Safety Systems

Date: 02/09/2025

Particulars	Details
Title of the Event	From Risk to Rescue: Understanding Gas Safety Systems
Date & Time	01/09/2025, 2:00 pm – 3:00 pm
Venue	Seminar Hall
Program approved by	Dr. Umesh B. Nagarkar
Program Coordinator	Dr. Manisha A. Patil As per their telephonic conversation with Dr. Manisha Patil the safety engineer from DAS Group of Company - Surya Gas Safety Device organized a session on "From Risk to Rescue: Understanding Gas Safety Systems"
Program in coordination with	IQAC Cell
Participants	Female Teaching and Non-Teaching Staff
Objective of the Program	To spread awareness about gas safety systems, their uses, and the consequences of neglecting them. Leak prevention: The primary function is to stop gas supply when a leak is detected. Gas saving: It also helps reduce gas consumption. Safety: It protects against dangerous situations like fires, explosions, and the buildup of hazardous gases. Ease of installation: The device is designed for straightforward installation.
About The Speaker/ Company	The Surya Gas Safety Device, from the DAS Group of Company, is a safety product designed to prevent gas leaks, save gas consumption, and ensure kitchen safety by stopping gas flow during leaks. It is an easy-to-install device that protects users from hazards like fires, explosions, and carbon monoxide inhalation. The product is available in different variants, including a regular model and specialized ones for geysers and commercial use
Highlight	The seminar highlighted the importance of gas safety devices, working mechanisms, preventive role, real-life case studies, and initiatives by DAS Group of Company - Surya Gas Safety Device.
Interaction / Q&A	Participants actively engaged, raised queries on practical use and safety precautions.
Vote of Thanks	Dr. Manisha A. Patil
Outcome of the Program	The seminar was informative and created awareness about the need for adopting gas safety measures at homes and workplaces.
