

FIELD VISIT REPORT

Infectious Disease Hospital Visit Report

Department: Community Medicine

Class: III BHMS

Academic Year: 2026-27

Date of Visit: 24/06/2026

Place of Visit: Infectious Disease Hospital – Swami Samrth Rugnalay, Morwadi , NMC , Cidco, Nashik

Faculty In-charge: Prof. Dr. Vaibhav V. R. Mahajan

Total Students Participated: 46

Objectives of the Visit

1. To understand the management of communicable diseases in hospital settings.
2. To study isolation and infection control practices.
3. To observe biomedical waste management procedures.
4. To understand outbreak preparedness and response mechanisms.
5. To appreciate the role of public health measures in disease prevention.

Activities Observed

- Isolation wards and patient segregation procedures.
- Infection prevention and control practices.
- Use of personal protective equipment (PPE).
- Biomedical waste segregation and disposal.
- Surveillance and reporting of communicable diseases.
- Vector control and sanitation measures.
- Laboratory diagnostic support services.

Learning Outcomes

Students acquired knowledge regarding:

- Hospital infection control protocols.
- Isolation and quarantine principles.
- Public health surveillance systems.
- Biomedical waste management rules and practices.

Conclusion

The visit enhanced students' understanding of communicable disease management and the importance of infection prevention strategies in public health practice.

PERMISSION LETTER FOR EDUCATIONAL VISIT TO INFECTIOUS DISEASE HOSPITAL

Ref. No.: DHMC/2026/ 145/3

Date: 23/06/2026

To,
The Medical Superintendent,
Infectious Disease Hospital,
Swami Samarth Rugnalay, (C.H.C.) Morwadi, Cidco
Nashik, Maharashtra.

Subject: Permission for Educational Visit of III BHMS (CBDC Batch) Students

Respected Sir/Madam,
The Department of Community Medicine, Dhanvantari Homoeopathic Medical College & Hospital, Nashik, proposes to organize an educational visit for III BHMS (CBDC Batch) students to your esteemed institution as a part of the NCH CBDC curriculum.
The visit aims to provide practical exposure regarding prevention, surveillance, diagnosis, isolation practices, and management of communicable diseases and public health measures undertaken at an infectious disease hospital.

Details of Visit:

- Class: III BHMS (CBDC Batch)
- Number of Students: 46
- Accompanying Faculty: Prof. Dr. Vaibhav Vijaya Ravindra Mahajan and Team
- Date of Visit: 24/06/2026
- Time: 11.30am to 2.30 pm

Aim and Objectives: Infectious Disease Hospital Visit

Aim

To familiarize students with the organization and functioning of an infectious disease hospital and its role in prevention and control of communicable diseases.

Objectives

1. To understand the burden and epidemiology of communicable diseases.
2. To observe isolation and infection control practices.
3. To understand outbreak prevention and disease surveillance.
4. To study notification and reporting of communicable diseases.
5. To observe patient care and public health measures.
6. To understand biomedical waste management practices.
7. To correlate classroom learning with practical disease control activities.

Aim and Objectives: Tuberculosis Centre Visit

Aim

To provide students with practical exposure to tuberculosis prevention, diagnosis, treatment, and elimination strategies under NTEP.

Objectives

1. To understand the objectives and components of NTEP.
2. To observe TB diagnostic facilities and procedures.
3. To understand treatment protocols and patient follow-up.
4. To study contact tracing and surveillance activities.
5. To understand drug-resistant tuberculosis management.
6. To observe TB notification and Nikshay-related activities.
7. To appreciate the role of public health programmes in TB elimination.

Aim and Objectives: Community Health Centre (CHC), Kamatwade Visit Aim

To provide practical exposure to the organization, administration, and functioning of a Community Health Centre as a secondary-level health-care facility.

Objectives

1. To understand the structure and functions of a Community Health Centre.
- 2.
3. To observe specialist and referral services available at the CHC.
4. To study implementation of National Health Programmes.
5. To understand maternal and child health services.
6. To observe emergency and inpatient care services.
7. To understand health management information systems and record maintenance.
8. To study referral mechanisms between Sub-Centre, PHC, CHC, and higher institutions.
9. To correlate theoretical concepts of Community Medicine with field-based public health services.

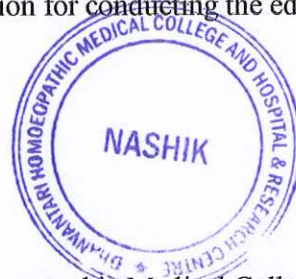

Course: Community Medicine

Class: III BHMS (CBDC Batch)

Teaching-Learning Method: Field Visit / Experiential Learning / Community-Based Education As per NCH CBDC Curriculum 2022.

We request your kind permission and cooperation for conducting the educational visit.

Thanking you.
Yours faithfully,

FIELD VISIT REPORT

Sub Centre Visit Report

Department: Community Medicine

Class: III BHMS

Academic Year: 2026-27

Date of Visit: 24/06/2026

Place of Visit: Sub Centre Kamatwade

Faculty In-charge: Prof. Dr. Vaibhav V. R. Mahajan

Total Students Participated: 46

Objectives of the Visit

1. To understand the organization and functioning of a Health Sub Centre.
2. To study the role of Health Workers in delivering primary healthcare services.
3. To observe maternal and child healthcare activities at the community level.
4. To understand national health programme implementation at the Sub Centre level.
5. To correlate theoretical knowledge with field practices.

Activities Observed

- Registration and maintenance of records and registers.
- Antenatal and postnatal services.
- Immunization services under UIP.
- Family welfare and family planning services.
- Nutritional counselling and growth monitoring.
- Disease surveillance and reporting activities.
- Health education and community outreach services.

Learning Outcomes

Students gained practical exposure to:

- Functions of ANM and MPW staff.
- Primary healthcare delivery mechanisms.
- Maintenance of health records and reports.
- Community participation in healthcare activities.

Conclusion

The visit provided valuable practical exposure to the functioning of the Sub Centre and enhanced students' understanding of primary healthcare services delivered at the grassroots level.

PERMISSION LETTER FOR EDUCATIONAL VISIT TO SUB-CENTRE, KAMATWADE

Ref. No.: DHMC/2026/ 14512

Date: 23/06/2026

To,
The Medical Officer In-Charge,
Sub-Centre, Kamatwade,
Nashik, Maharashtra.

Subject: Permission for Educational Visit of 3rd BHMS Students to Sub-Centre, Kamatwade

Respected Sir/Madam,

Greetings from Dhanvantari Homoeopathic Medical College & Hospital, Nashik.

The Department of Community Medicine intends to organize an educational field visit for 3rd BHMS students to your Sub-Centre as a part of the prescribed curriculum in Community Medicine and Public Health. The visit aims to provide students with practical exposure to the functioning of the rural/urban health care delivery system and various public health services rendered at the Sub-Centre level.

We kindly request your permission to allow our students and faculty members to visit the Sub-Centre and observe its activities.

Details of the Visit :

- **Institution:** Dhanvantari Homoeopathic Medical College & Hospital, Nashik
- **Department:** Community Medicine
- **Class:** III BHMS / IV BHMS
- **Number of Students:** 46
- **Accompanying Faculty:** Prof. Dr. Vaibhav Vijaya Ravindra Mahajan and Team
- **Proposed Date of Visit:** 24/06/2026
- **Proposed Time:** 9.30am to 10.30 am

The students will be guided to observe and understand:

- Organization and functioning of the Sub-Centre
- Roles and responsibilities of Health Workers
- Maternal and Child Health services
- Immunization services
- Family Welfare activities
- National Health Programmes
- Health education and community outreach activities
- Maintenance of records and registers
- Disease surveillance and reporting mechanisms

We assure you that all students shall maintain discipline and strictly adhere to the instructions and regulations of the Sub-Centre during the visit.

We shall be grateful for your kind permission and cooperation in facilitating this educational activity.

Aims and Objectives of the Visit

Aim:

To provide BHMS students with practical exposure to the functioning of a Sub-Centre and its role in primary health care delivery.

Objectives:

1. To understand the organizational structure and functioning of a Sub-Centre.
2. To observe the implementation of Primary Health Care services.
3. To study maternal, child health, and immunization services provided at the Sub-Centre.
4. To understand the role of ANM, ASHA, and other health workers in community health.
5. To observe maintenance of records, registers, and reporting systems.
6. To study the implementation of National Health Programmes at the grass-root level.
7. To understand disease surveillance, prevention, and health promotion activities.
8. To correlate theoretical knowledge of Community Medicine with field-based public health practices.

Thanking you.

FIELD VISIT REPORT

Primary Health Centre (PHC) Visit Report

Department: Community Medicine

Class: III BHMS

Academic Year: 2026-27

Date of Visit: 24/06/2026

Place of Visit: Primary Health Centre _____

Faculty In-charge: Prof. Dr. Vaibhav V. R. Mahajan

Total Students Participated: 46

Objectives of the Visit

1. To understand the administrative and clinical functions of a PHC.
2. To study the implementation of National Health Programmes.
3. To observe preventive, promotive, curative and rehabilitative services.
4. To understand referral services and health management systems.
5. To observe healthcare delivery under Primary Healthcare principles.

Activities Observed

- OPD registration and patient management.
- Maternal and child health services.
- Immunization clinic activities.
- Laboratory and pharmacy services.
- National programme implementation activities.
- Record maintenance and reporting systems.
- Referral services and emergency care.

Learning Outcomes

Students learned about:

- Organization and staffing pattern of PHC.
- National Health Mission activities.
- Health information systems and reporting.
- Referral chain in public healthcare delivery.

Conclusion

The visit successfully bridged classroom learning with practical public health service delivery and improved students' understanding of rural healthcare administration.

Subject: Permission for Educational Visit of BHMS Students to Ayushman Arogya Mandir (Health & Wellness Centre)

Respected Sir/Madam,

Greetings from Dhanvantari Homoeopathic Medical College & Hospital, Nashik.

The Department of Community Medicine proposes to organize an educational visit for BHMS students to your Ayushman Arogya Mandir (Health & Wellness Centre) as a part of Community Medicine training prescribed by the National Commission for Homoeopathy (NCH) and Maharashtra University of Health Sciences (MUHS).

The visit aims to provide students with practical exposure to the delivery of Comprehensive Primary Health Care (CPHC), preventive, promotive, curative, rehabilitative, and palliative care services provided through the Ayushman Arogya Mandir.

We kindly request your permission to allow our students and accompanying faculty members to visit your centre.

Details of Visit

- **Institution:** Dhanvantari Homoeopathic Medical College & Hospital, Nashik
- **Department:** Community Medicine
- **Class:** III BHMS CBDC Batch
- **Number of Students:** 46
- **Accompanying Faculty:** Prof. Dr. Vaibhav Vijaya Ravindra Mahajan and Team
- **Proposed Date:** 24/06/2026.
- **Time:** 11.30 am to 2.30pm

Aim and Objectives of Visit to Ayushman Arogya Mandir (Health & Wellness Centre)

Aim

To provide BHMS students with practical exposure to the functioning of Ayushman Arogya Mandir and its role in delivering Comprehensive Primary Health Care services at the community level.

Objectives

1. To understand the concept and objectives of Ayushman Arogya Mandir under the national health system.
2. To study the delivery of Comprehensive Primary Health Care (CPHC) services.
3. To observe maternal, newborn, child, and adolescent health services.

4. To understand screening and management services for Non-Communicable Diseases (NCDs) such as hypertension, diabetes, and common cancers.
5. To study immunization and family welfare services.
6. To observe health promotion, wellness, and preventive health activities.
7. To understand the role of community participation and health education in disease prevention.
8. To study digital health initiatives, electronic health records, and teleconsultation services where available.
9. To observe the implementation of national health programmes at the grassroots level.
10. To understand the roles and responsibilities of Community Health Officers (CHOs), ANMs, ASHAs, and other health-care personnel.
11. To correlate theoretical concepts of Community Medicine with practical community-based health-care delivery.
12. To appreciate the contribution of Ayushman Arogya Mandir in achieving Universal Health Coverage (UHC).

Expected Learning Outcomes

After the visit, students will be able to:

- Describe the structure and functioning of an Ayushman Arogya Mandir.
- Explain the components of Comprehensive Primary Health Care.
- Understand community-based preventive and promotive health services.
- Appreciate the role of Health & Wellness Centres in strengthening India's primary health-care system.
- Prepare a field visit report based on observations and learning experiences.

Field Visit Type: Community-Based Learning Activity

Subject: Community Medicine

Program: BHMS

Competency Area: Primary Health Care, Health Systems, National Health Programmes, Health Promotion, and Community-Based Health Care.

We assure you that all students will maintain discipline and follow the instructions of the centre authorities during the visit.

We shall be grateful for your kind cooperation and permission.

Thanking you.
